RECOMMENDED DRUG DOSING

Your prescription drug plan includes a program that reviews prescribed drug quantities to ensure your medications are being safely prescribed in accordance with FDA guidelines.

The drug quantity review program provides the medications you need for good health, while making sure the dose you are receiving is considered safe.

For instance, if FDA guidelines allow one pill/dose per day, the program will allow a maximum of 30 pills for a month's supply. This quantity will give you the right amount to take for a daily dose that is considered safe and effective.

SAVEONSP PROGRAM

The SaveOnSP program covers certain specialty medications at no cost for eligible members. The 150+ medications included in the program consist of products covering conditions such as Hepatitis C (Hep C), Multiple Sclerosis (MS), Psoriasis, Inflammatory Bowel Disease (IBD), Rheumatoid Arthritis (RA), Oncology, and others.

To verify your eligibility, please call **800.683.1074**.
